## AIRDOS04 - DATA UNIT - service log

| # | INSERTED | REMOVED | ERASED |
|---|---|---|---|
| 1 | | | |
| 2 | | | |
| 3 | | | |
| 4 | | | |
| 5 | | | |
| 6 | | | |
| 7 | | | |
| 8 | | | |
| 9 | | | |
| 10 | | | |
| 11 | | | |
| 12 | | | |

Data module for AIRDOS04 detectors. Enter the date and time for each performed operation. Use this log to track the handling and servicing of the data module.

1) INSERTED – date and time when the module is inserted into the detector

2) REMOVED – date and time when the module is removed from the detector

3) ERASED – date and time when stored data are erased from the module.

## AIRDOS04 - DATA UNIT - service log

| # | INSERTED | REMOVED | ERASED |
|---|---|---|---|
| 1 | | | |
| 2 | | | |
| 3 | | | |
| 4 | | | |
| 5 | | | |
| 6 | | | |
| 7 | | | |
| 8 | | | |
| 9 | | | |
